

266 Ferst Dr, Atlanta, GA 30332, United States
Cell: +1(404)697-0608. Email: gonglong@gatech.

Objective

Internship position in the field of networking (with special interest in software defined networking and data center networking), scheduling in switches and software engineering. Available: May - Aug 2018

Education

Georgia Institute of Technology, Atlanta, GA, USA

Ph.D. Candidate in Computer Science (GPA: 4.0/4.0) 2015.8 - Present

University of Science and Technology of China, Hefei, Anhui, China

M.Eng. in Communication and Information Systems (GPA: 3.81/4.3) 2012.9 - 2015.6

B.Eng. in Electronic Information Engineering (GPA: 3.75/4.3) 2008.9 - 2012.6

Intern Experience

AT&T Labs Research, Bedminster, NJ, USA

2016.5 - 2016.7

Research Intern

Mentor: He Yan and Zihui Ge

Developed tools to automate the dynamics analysis in services supported by virtualized environment.

Projects

Crossbar Scheduling

2016.2 - Present

- Designed a simple yet effective “add-on” crossbar scheduling algorithm for input-queued switches, which can boost the performance (switch throughput or delay or both) of existing switching scheduling algorithms (e.g., iSLIP and SERENA) with almost “no” computational overhead. (SIGMETRICS 2017)
- Built an efficient and flexible simulator for crossbar scheduling in input-queued switches.

Time Capsule for Online Social Activities

2015.9 - Present

- Designed a hybrid streaming-sampling algorithm for high accurate measurements of Online Social Networking (OSN) cascade statistics, using limited memory, which decreased the errors (measured in ℓ_2) by more than one order of magnitude. (ICCCN 2017)

Professional Skills

Programming Languages: C++ (proficient), PYTHON (fluent), JAVA (prior experience)

Honors and Awards

Student Travel Grant Award

ACM SIGMETRICS

2017
